

## ***Tagajo High School***

### ***“Exchange activities with high school students from Oita Prefecture”***

In 2020, August 12, Miyagi Prefecture Tagajo High School Students volunteered for students from Oita prefecture showing the affected area in Tagajo due to Great East Japan earthquake, 4 students and supervising teacher from 3 school (Takeda high school, Kitsuki High School, Utsuki High School visited our school.)

At first, welcome words, then the disaster countermeasures, disaster prevention and disaster mitigation education were spoken by the principal teacher in Tagajo High School. The school introduction was given by the student council, and achievement announcement of themed research were announced by representative student of disaster science.

After that, we had a town walk showing the affected area and made a tour of the disaster temporary housing, relocated to the yard of Tagajo High School. Students of Disaster Science course explained “tsunami height sign” which the students of Tagajo High School set up after the Great East Japan earthquake.
