

## **Tagajo High School “Selling Fairtrade products at School Festival”**

In 2004, December 26, 7:58 a.m., In Sumatra, Indonesia, a huge earthquake happened. A large tsunami came there. Many people died in Southern Thailand.

Tsunami Craft was established in Phang Nga Province. As many as 4,225 people died there. After tsunami, affected area began to produce many folk crafts.

Many projects were made in Phang Nga Province’s camp. They are called “Tsunami Craft”. We sold tsunami craft goods at school festival of Tagajo High School. Many people came to buy them. It is good to know about disasters that occurs overseas.

Positively, I want to do this activity like this again.
