

Tagajo High School “Activities of Disaster Prevention Committee”

Let us introduce “Disaster Prevention Committee” of Tagajo High School. They work on activities that is related to disaster prevention. For example, they install disaster prevention booth and plan a stamp rally in the school festival. This year, they worked on new activities putting on a lot of disaster prevention slogans. They issues “Disaster prevention news” every month. For example, the article warns the students of the danger of landslide when typhoon approaches.

They do safety inspection and check fire extinguishers before summer, winter, and spring vacation.

The members sometimes mingle with the community. For example, they participate in disaster prevention camp of elementary school and junior high school students. They hold workshops as leaders there. At the camp many activities were done such as quizzes and cooking related to disaster prevention.

We think that the giving information through activity is important. We want to continue these activities!
